

Diamond Dispatch

Diamond Dispatch now available on the website www.diamondmo.net

Would you like to help improve our city and help bring new business. We currently have openings on the Zoning and Planning and Park Board. Zoning and Planning will help to set zoning restrictions and help plan for the city's future growth.

The Park Board will plan any further expansions to the park such as a walking trail. Both Boards meet once a month and will work with the Council to take Diamond into the future.

If you are interested in participating on the committee please contact Mayor Hunter or City Hall. We need help to get Diamond growing.... Let's work together to make it happen.

They are due Dec. 31**

SEWER SYSTEM SMOKE TESTING WEEK OF NOV. 4

The City of Diamond will be conducting leak testing in the sanitary sewer system by blowing smoke into the sewer lines. This smoke will reveal sources of sewer odors in your neighborhood as well as the locations where storm water and other sources of surface waters are entering the sanitary sewer systems.

A special non-toxic smoke will be used in these tests. This smoke is manufactured for this purpose, leaves no residuals or stains and has no effects on plant and animal life. The smoke has a distinctive, but not unpleasant odor. The visibility and odor from the smoke only last a few minutes were there is adequate ventilation.

Because the plumbing appliances in your home or building are connected to the sanitary sewer system, some of this smoke may enter your home if one of the following exists:

The vents that are connected to your building's sewer pipes are inadequate, defective, or are improperly installed.

The traps, under sinks, tubs, basins, showers, or are other drains are dry, defective, improperly installed, or missing.

The pipes, connections and seals of the wastewater drains in or under your building are damaged, defective, have missing plugs, or are improperly installed.

All residents are advised that if, traces of this smoke or the odor enters, the building, it is an indication that sewer gases and odors may also enter the home or building. These can be both unpleasant and dangerous as well as a health hazard the occupants. The correcting of these problems should be done in an urgent manner.

While the City of Diamond will render all possible cooperation, the correction of these defects on private property is the responsibility of the property owner. The services of a professional plumber, is many times required.

If you have any questions, please contact the City offices during regular business hours. 417-325-4220
