

# Diamond Dispatch

Diamond Dispatch now available on the website [www.diamondmo.net](http://www.diamondmo.net)

## Farmer's Market a Success....

The new Farmer's Market has proved to be a great success. In 3 weeks time we have grown from 2 vendors to 5 vendors. We have also added a additional day for your convenience. We are now open Saturday's at 7:00 am and Tuesday's at 5:00 pm. We are always looking for more vendors. Come check out the farm fresh veggies and occasionally fresh baked goods.

## Board of Alderman Vacancy

We are seeking applicants to fill the vacant Board of Alderman position left open by the recent resignation of Brian Navarro to spend more time with his family. All applicants must reside inside the city limits, live on the west side of Main St., be 21 years or older and reside in Diamond for 1 year or more. If you are interested in completing this one year term and would like to help the city grow and prosper apply at City Hall before August 5.

## Park News...

If you haven't been by the park recently you have not seen the new flower boxes, Boy Scout Rob Judd has been working on to earn his Eagle Scout. He is also installing a small pavilion by the playground and barriers around the parking lot.

The new bridge should be in place in the next 3 weeks to assist crossing the storm drain. The new lights have went in to help provide light for Gem City Days, which is scheduled to take place at the park this year. With this move it will open up the Church lot for parking during the celebration. Currently the teeter totter is under repair. We ask that you stay off of it until the repairs are finished. The city would like to remind you that there is a list of rules posted at the park. If you see anyone riding skateboards on the equipment we ask you notify the police. The wheels tear up the slides and will cause us to have to repair them quicker than normal wear. Let's all work together to keep our park nice, we waited a long time for it.
